for CHANGE

RESEARCH POLICY PRACTICE
Evolution
Construction for Change partners with nonprofit organizations to build spaces where people can become healthier, better educated, and increase economic mobility.
**OUR MODEL**

**PARTNER**
Identify community-based healthcare Partners who lack adequate facilities.

**LEARN**
Incorporate lessons learned into next project.

**DESIGN**
Architectural and engineering professionals design new infrastructure.

**MONITOR**
Collect data on indicators to evaluate project impact.

**ACCESS**
New facility opens - Community-based Partner can now maximize impact and increase healthcare.

**CONSTRUCT**
1-2 volunteer construction professionals travel to Partner community to manage construction and local crew.

Trends in Barriers to Access

- $$ Capital Funds
- Network of collaborating partners
- Outdated, lacking or unenforced standards
- Skilled professionals in remote or conflict/climate afflicted regions
  - Designers & engineers
  - Healthcare practitioners
  - Construction Management
  - Specialized trades & skilled labor
- Maintenance Providers
- Lack of government support
- Inadequately planned, designed and constructed facilities
Building access through partnerships
