parents and specialists joined forces
Princess Maxima Center for pediatric oncology

- around 600 children in the Netherlands get cancer every year
- one in four children diagnosed with cancer dies
- aim to accelerate advances in treatment.
- highly complex care and research for children with cancer in one
Princess Maxima Center for pediatric oncology

We want to cure as many children and adolescents with cancer as possible, as quickly as possible — and do this without compromising their quality of life, so that they will be able to achieve their full potential as members of society.

24/7 care
Princess Maxima Center for pediatric oncology

The Princess Máxima Center is also unique in its focus on patient- and family-centered care and support. It wants to make sure that cancer interferes as little as possible with a child’s development and normal family life.
• each child one room
• with connected parents room
• each unit an outside space
• nurse desk outside the room
